FOIL**

2022-2023 COLLECTION

INTRO

RIDER : Chris Defrance
PHOTOGRAPHER : Lionel Faliu
LOCATION : Canet-en-Roussillon - France

Passionate about gliding and an entrepreneur at heart, I have built my life around these 2 pillars. In 2016, after more than 10 years of incredible adventures with Redwoodpaddle, I started dreaming of flying over water!

This idea was a bit crazy. The desire to fly whatever the weather conditions was omnipresent. The idea of an efoil is emerging.

A team of enthusiasts, all with complementary skills, formed around this idea.

In 2018, we are presenting our prototype at the Paris Boat Show.

Chris Defrance

A year later, we received our first orders.

By 2020, PWR-Foils will be flying all over the world.

You, dear customers, are our best ambassadors! The efoil is incredibly addictive! Not a day goes by without me being on the water, either for fun or to constantly improve our machines.

Every time I fly, I get that same adrenaline rush!

I hope to have the pleasure of meeting you and sharing a great session, I am convinced that you will take as much pleasure in flying as we take in developing this fabulous machine.

AN EFOIL, ELECTRIC FOIL, IMAGINED,

Our keywords?

Innovation
Made in France
Absolute safety for users
Best value for money

It's not just about making an electric foil, it's also and above all about making it in France, relying on local knowledge and skills.

Passion, perseverance and skills have made it possible to achieve this dream.

The engineering is 100% French. Our Research & Development unit is constantly improving our machines to be always ahead of technology, computing, connectics, hydraulic electricity...

DESIGNED, DEVELOPED & ASSEMBLED IN FRANCE

The batteries are created in our region guaranteeing an outstanding French quality.

The assembly and after-sales service are fully provided in our production site.

All this allows us to reduce our carbon footprint and to offer you a high quality product for direct sale.

Our machines can now fly for over 90 minutes and reach speeds of up to 60 km/h.

The feeling of free flight above the surface of the water. Uncompromising ease. Uncompromising safety. Silence and osmosis with the surrounding nature.

WHATEVER YOUR LEVEL, WHATEVER

Our efoils are perfectly designed to fit all levels and sizes. The board size and kite size duos are designed to meet your criteria to give you the best experience.

The choice of board size and kite size will depend on your size, experience and desired level of playability. The smaller the size, the more playful it will be. The bigger it is, the easier it will be for you to get started.

As your riding evolves, you may want a smaller board to discover new sensations. They are all adaptable and interchangeable, as are our wings.

YOUR SIZE, AN EFOIL WILL SUIT YOU.

SOLID, LIGHT AND AESTHETIC BOARDS.

Our construction guarantees boards that are both strong and light. Our rigid boards are made from a 4 axis CNC shaved EPS HD, laminated with epoxy, fibre and carbon. The shape benefits from a double concave allowing for easier take off and touch & go with as little brake as possible.

A CIRCUIT BREAKER FOR YOUR SAFETY.

We offer a 100% efficient system; a 1m leash is attached on one side to your ankle or waist, connected on the other side to a 25kg magnet. This magnet, as soon as you connect it to the board, starts the electrical circuit. When you fall, it will disconnect, instantly stopping the rotation of the propeller, making it impossible to injure yourself with it.

EFOIL PAULOWNIA

MODEL

Sober, efficient.
Paulownia double sandwich.
Double concave for easy starts.
All-round shape accessible to all levels and practices.

VARIATIONS

With the same board options and sizes, you can choose between Basque Red, Grey and White.

PERSONALIZATION

Possible on white boards.

CLUB OFFERS

We thank you for basing your business model on our machines and we want to support you in the success of your business:

- Because the safety of your customers is important, we offer you 1 flotation jacket per efoil purchased, to choose between 2 sizes: S-M and L-XL.

- So that your customers can spot you from a distance, we offer you one or more beachflags that you can place in front of your premises or at the sailing site. You will be easily identified.

- And finally, we offer you the possibility to co-brand the white efoil. A space is reserved for a 1 colour sticker if you wish.
